EDUCATION

Global Academy of Technology

Bachelor of Engineering — Artificial Intelligence and Machine Learning

July 2025

CGPA - 8.88

Sri Kumaran Children's Home

Pre-University College, Karnataka Pre-University Course — Electronics

May 2021

Grade - 93%

Prarthana Central School

Class X, CBSE

Mar 2019

Grade - 93%

EXPERIENCE

Freelance Web Developer

Sep 2025 – Oct 2025

Self-Employed / Remote

Bengaluru

- Designed, developed, and shipped a responsive web application using React, Vite, TypeScript, including a client website for Nayana Constructions with company profile, services, projects, and an EmailJS-based contact form.
- Built a modern UI-driven web platform for a Jain University startup, showcasing nutritionist and therapist profiles with interactive experience cards, focusing on usability, performance, and cross-device compatibility.

Engineering Intern

Oct 2024 – Nov 2024

Hindustan Aeronautics Limited — HAL

Bengaluru

- Developed and deployed .NET application adopted by 150+ employees, cutting message response time by 30%
- Automated network monitoring and diagnostics workflows, cutting manual intervention by 40% and reducing overall system downtime by 25%
- Implemented advanced security protocols and encryption standards, enhancing data protection and lowering vulnerability exposure by 35%.

PROJECTS

Verse AI – Document Chat Assistant

Node.js, Express, PostgreSQL, Redis, JWT, LangChain, RAG, ChromaDB, Gemini API

May 2025

- Built an AI document chat platform supporting 10+ file formats with a RAG pipeline and ChromaDB vector search, delivering 96% accuracy and 40% faster processing with secure JWT authentication and Redis-based token management.

EchoSight: AI Wearable Device for the Blind

OpenCV, Dlib, YOLOv4-tiny, TensorFlow, Arduino, Text-to-Speech

Feb 2025

- Engineered a real-time computer vision wearable integrating facial recognition (98% accuracy), YOLOv4-tiny object detection, and ultrasonic obstacle sensing with Python Text-to-Speech audio feedback for independent navigation, utilizing Wi-Fi communication for data transmission.

Answer Script Evaluation Bot

Python, Flask, Google Gemini API, Prompt Engineering, pdf2image, PIL

Mar 2024

- Developed an AI evaluation system using prompt engineering to achieve 95% scoring accuracy and 80% faster processing through intelligent OCR, generating detailed feedback with mark breakdown and improvement suggestions.

TECHNICAL SKILLS

Programming Languages: Python, C, R, SQL, JavaScript, HTML/CSS

Frameworks & Libraries: Flask, FastAPI, Material-UI, Node.js, Next.js, React+Vite, Streamlit, Tailwind CSS

AI Tools & Techniques: Machine Learning, Deep Learning, Computer Vision, Natural Language Processing (NLP), Large Language Models (LLMs), Retrieval-Augmented Generation (RAG), Agentic AI, Model Context Protocol (MCP), LangChain, Hugging Face Transformers, LM studio, OpenAI API, Google Gemini API, Pandas, NumPy, Scikit-Learn, Keras, Matplotlib

Backend, Databases & Cloud: PostgreSQL, MongoDB, Redis, JSON Web Tokens (JWT), Bcrypt

Developer Tools & Platforms: Git/GitHub, Docker, Postman, VS Code, XAMPP, Vercel, Netlify

CERTIFICATIONS

- Python for Data Science and Machine Learning — Udemy
- ChatGPT Prompt Engineering for Developers — DeepLearning.AI
- Generative AI with Large Language Models — Coursera / Google

LEADERSHIP AND EXTRA-CURRICULAR

- Founding Core Committee Member, VIHANA – Organized 5 hackathons reaching 500+ participants, coordinated mentorship programs and community outreach initiatives, and spearheaded AI research collaborations with industry partners, strengthening teamwork, leadership, communication, and cross-functional collaboration skills.
